

# Case Study

**Customer Profile:** High Quality Printing MRO

**Opportunity:** Design, engineer and install an HPU able to transport printing ink from bulk tanks to a million dollar high-end printing press.

**Result:** **RG Group** successfully designed, fabricated and engineered a Hydraulic Power Unit to fulfill customer requirements to transfer the ink from the containment room to the printing press.

**Advantage:** Not only did **RG Group** meet the customer's requirements but the team installed the HPU within a tight one week deadline to prevent delays with upcoming construction companies on-site.
