# Bimetal Thermometer - Process Grade - All Stainless Steel Construction Type TI.31, 3" Dial Size - Bottom Connected

Datasheet TI.31

# **Applications**

- General process instrumentation in the chemical, petrochemical, oil and gas, energy and water/wastewater industries
- Temperature measurement in harsh and aggressive environments
- With liquid dampening suitable for applications with high vibrations

## **Product features**

- Process grade design
- Lower (bottom) connection with external reset
- All stainless steel case construction
- Hermetically sealed per ASME B40.3
- Accurate to 1% of full scale value
- Available with silicone case filling for vibration

#### Thermometer TI.31

# **Specifications**

#### Size

3" (76.2 mm) Type TI.31

#### **Accuracy**

± 1.0% full scale value per ASME B40.3, Grade 3A

## Ranges

From -100°F (-70°C) to +1000°F (+540°C) From -50°C to +550°C (as single scale) Reference table on page 2

#### **Working Range**

Steady: full scale value
Short time: 110% of full scale value

## **Over/Under Range Protection**

 $\leq$  +500 °F (+260 °C): Temporary up to 50% of full scale > +500 °F (+260 °C): Continuous to 800 °F (+427 °C) Intermittant up to 1000 °F (+538 °C)

#### Connection

Material: 304 stainless steel Lower mount (LM), 1/2" NPT

#### Stem

Material: 304 stainless steel Diameter: 1/4" (6.35 mm)

Length: 21/2" to 72" (63.5 mm to 1,828.8 mm)

#### **Measuring Element**

Bi-metal helix

#### Case

Material: 304 stainless steel

Hermetically sealed per ASME B40.3 standard

Weather protection NEMA 4X (IP 66)

External reset slotted hex head on back of case

#### Dial

White aluminum, dished, with black markings

#### **Pointer**

Black aluminum

#### **Standard Scales**

Single: Fahrenheit or Celsius

Dual: Fahrenheit (outer) and Celsius (inner)

## Window Gasket

Neoprene

Silicone for ranges -100 °F (-70 °C) and ranges > +550 °F (+260 °C)

#### Dampening

Inert gel to minimize pointer oscillation

#### Window

Flat instrument glass

#### Weight

11 oz. (311 g) - 3" dial (76.2 mm)

Add 1 oz (28 g) for every 2" (50 mm)of stem length

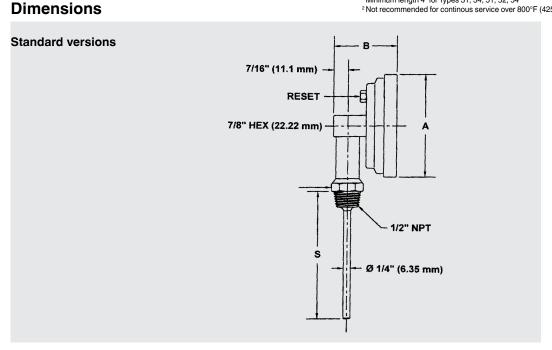

Page 1 of 2

# **Optional Extras**

- Thermowells
- Silicone fill
- **Dampened Movement**
- Special scales and dial markings
- Acrylic and safety glass windows
- Calibration certification traceable to NIST

Note: Thermowells for temperature instruments are recommended for all process systems where pressure, velocity, or viscous, abrasive and corrosive materials are present individually or in combination. A properly selected thermowell protects the temperature instrument from possible damage resulting from these process variables. Furthermore, a thermowell permits removal of the temperature instrument for replacement, repair or testing without effecting the process media or the system.

#### Ordering information

State computer part number (if available) /type number/size/range/connection size and locations/options required. WIKA reserves the right to make changes without prior notice.
