

# WHEN IT COMES TO SYSTEM CONDITION MONITORING, WE HAVE YOUR BACK.

As a leading provider of Motion Control and Fluid Handling solutions, RG Group features a full line of Parker IIoT products to help you monitor systems and maintain peak performance.

From digital gauges and app-based components to SensoNODE™ and Voice of the Machine™, condition system monitoring helps you:

- Mitigate catastrophic failure
- Eliminate down time and lengthy supply chain delays
- Monitor both mobile and facility based systems anytime, from anywhere
- Increase equipment lifespan and hours of operation

**Contact me.** In a quick Teams meeting, we can discuss how we can help you go from **REACTIVE** to **PREVENTATIVE** to **PREDICTIVE**.
