

The right tech at the right time, the right price

When the solution you have for your customer requires a resource you don't have in-house, we can help.

RG Group has been providing integrators with the most capable, cost-effective automated solutions for a variety of applications. From a gantry system to a 7-axis build or a standard automation technology, our selection of products from tier-one strategic partners can help you get the results you're looking for.

Here's just a sampling of what we offer:

Doosan H Series – High -capacity and ►
-payload, lightweight and considerably less
expensive than comparable competitor cobot models.

Cognex – Vision ▲
systems designed to
ensure the quality and
integrity of what's
produced and what's
passing through.

RG Group Automation Solutions

Developed to meet your needs, so you
can meet the needs of your customers.
